THE NEW PARK COMMISSIONER AND THE NA-TIONAL GUARD - THE 69TH REGD

MENT'S PROSPERITY. Although the main interest in the National Guard centres largely in the State Camp at Peekskill during the summer months, the regiments at home continue to keep up a good deal of local interest. Captain Appleton's election as colonel of the 7th Regiment week was an important occurrence in the annals of the regiment. General Fitzgerald presided at the There are thirty-two officers who are entitled to vote, but two of them, Lieutenants Duval and Peck are in Europe. Captain Appleton of course did not vote, and he received the entire twenty-nine There was abundant enthusiasm, shouts from 500 of the regiment which made the rafters resound and pleasant speeches. Besides General Fitzgerald there were present Colonel Leonard and ex-Captains Steele and Cooper, of the regiment. The officers had a luncheon at the Buckingham Hotel later.

The National Guard has secured in Park Commisstoner Albert Gallup, who has just been appointed on the Park Board by Mayor Grant, an active and member of the National Guard, holding office in the First Brigade Signal Corps. One of his first suggestions at the board meetings was in regard to the new parade ground which the State has provided in Van Cortlandt Park. The commissioner recommended that immediate steps be taken toward its preparation, and desired that the engineers of the department be directed to prepare plans with this in view at once. The work will in consequence not have a chance to lag and there is every prospect that the ground may be

The contract for the new 8th Regiment armory provides that it shall be completed by August 9, but contractor has been delayed in his work and has asked for a two months' extension. This was given him with the provision also that he forfeit \$25 on every day beyond the original date for the completion. The regiment has leased the old quarters for another three months, and it will not probably get the new uilding before October. The quarterly returns of the regiment show an encouraging outlook. There has been a gain of fifty-seven men, making the total enrollment of the regiment 509, against 452 of the last quarter. The officers and men are confident that the ranks will fill up rapidly next winter. Lieutenant-Colonel Shilling is organizing a new company in Westchester County. It has a full complement of men drilling, and it will be mustered in as soon as the Adjutant-General's commission is received.

Measures are progressing for acquiring the site of the armory of the 71st Regiment, at Broadway and sixth-ave. The uptown companies of the regiment, which wanted a Harlem armory, are now coming reconciled to the situation and look forward to the completion of their new home. Colonel Kopper Commissary Auchineloss is skimming the blue waves in his yacht Katrina, and Quartermaster Kahnen is spending the hot season at his summer home in White Major Downs, accompanied by Adjutant Tilden and

Lisumenant Smith, of Company B, went to Peekskill yesterday to take command of the 2d Provisional limitation, at the Camp of Instruction, for the present week. With Major Downs as its Instructor, the battation anticipates some excellent results. The resignation of Captain Kennedy is reported, and Lieutenant Oscur L. Rogers, of the 2d Battery, will probably succeed him. Lieutenant C. M. Connolly, of Company G. it is said, will be elected and transferred to Company D, as its first lieutenant. Company B expects to make a trip to Greenwood Lake on Labor Day an outing and practice in sidemish drill.

The case of Captain A. W. Belknap still lingers unsatisfactorily. He visits the company occasionally, but is a looker-on, and there is little cordiality on ther side. He is now nominally Inspector of Riffe It seems to be understood that the Captain cill not be court-martialled on the charges prepared by the Colonel, the time for ordering the court having at Lieutenant Smith will be elected captain. Colonel Cavanagh, of the 69th, has been sworn in

member of the Armory Board and his regiment feels that the prospect of a new armory is now good. The manner in which the regiment has been coming front recently gives it the right to expect ful consideration. The regiment has taken down 152 men to Creedmoor and seventy-six officers have qualified. The command expect to go to Creedmoor early Last year it had but 110 marksmen, bu officers say that the number will reach 150 this year. On Sunday, August 4, Company I is to have party at Far Rockaway. Lieutenant James T. Healey is chairman of the committee of arrangements. Company F is arranging for a day's recreation at Sylvan Grove on August 11.

Colonel Appleton, of the 7th, has requested all the members of the old staff to remain under him. Adhas however been urged as a candi date for captain of Company F, but the officers of

didate.

In the 7th Regiment drum corps there are five men who have done service for the regiment for twenty-five years, as long as Colonel Clark. It is expected that they will receive recognition of this service with the regimental cross of honor, as the only objection to such a decoration is that they are paid for their services.

On August 3 there is to be a bayonet drill at West Brighton, Coney Island, by those old war veterans Duryea's and McChesney's Zouaves. It is for the benefit of Cameron Post, Grand Army of the Republic. Some of the best military companies have promised to attend and Join in the trial.

THE LIQUOR LAWS OF RHODE ISLAND.

DIFFERENCES OF THE SENATE AND THE HOUSE -POSSIBILITY OF A COMPROMISE.

Providence, R. I., July 27 (Special).—The General Assembly is still struggling with the license bill, but will probably close it up the coming week. The Senate made various amendments in the direction of greater stringency. The four leading points of difference between the two houses are these: The House voted for a \$400 license fee in Providence; the Senate wants it made \$500. The House made practically no restriction as to location of saleons; the Senate wishes prohibition to rule within 400 feet of schools. The House wants the license money all to go to the cities and towns granting licenses; the Senate says that one-half of it should go to the State, inasmuch as penal institutions made necessary by rum-seiling. The House, in anticipation of Democratic victories in the four cities of this State this fall, desires the commissioners to be appointed by the Mayors; the Senate regards the judgment of the Boards of Aldermen to be superior to that of the Mayors. It is possible that the Senate may yield as to the size of the license fees, and the House admit the 400 feet restriction, and that a compromise be made on the other points, giving the State one-fourth of the license money, and having the Commissioners apthe Mayors by and with the consent of the Board of Aldermen. The shores of Narragansett Bay present during the

summer time a fair picture of the European Sunday. At Bullock's Point and Crescent Park all sorts of amusements—tent shows, fandangos, flying horses, the mace etc.—are in full operation, and thousands of people render that locality a miniature Coney Island. At Rocky Point Sunday ball games have been inaugurated this year, greatly to the indignation of the religious elements of the State. While the law of the State is especially severe upon disturbances of the Sabbath, the ball players seem to have perfect immunity from the Warwick police

Hiram Peatson, the California millionaire who was drowned in Lake Michigan on July 7, died intestate, and, being a buchetor, without issue. It is claimed that a greater part of his large fortune will come to Rhode Island. Pearson was the son of Colonel Hiram Pearson, of Chicago, and Charity Ann Mathewson, of Rhode Island. The Colonel was a Forty-niner, and became wealthy. His son inherited the fortune. The heirs are four cousins on his father's side in the West, one of them being the Hon, H. C. Wheeler, of Iowa, a candidate for Governor at the next election, and on the mother's side two aunts, three uncles and eleven cousins in New-England. Two of the uncles are Ira and Daniel Mathewson, of this city.

OFF FOR A REUNION WITH THEIR OLD POES. The steamship Necoochee, of the Savannah Line, which sailed yesterday afternoon at 3 o'clock, carried among her passengers a delegation from the old bth New-York Volunteers, Hawkins's Zouaves, headed by ex-Judge Langbeln, Sergeant W. H. Thompson, of the Police Department, and Richard H. Jackson. They go to attend a reunion of the 3d Georgia Confederates at Fort Valley, Ga., on July 31 and August J. During the War of the Rebellion the two organizations met and fought in North Carolina and Maryland.

ONLY \$25 SHORT OUT OF \$700,000,000.

Washington, July 27,-The count of the cash and securities in the United States Treasury incident to the transfer of the office from Mr. Hyatt to Mr. Higion, the incumbent, was completed this afternoon amount reported on hand aggregated over \$700, 000,000 in gold, silver and paper, and Mr. Huston said this afternoon that it was all accounted for and that he would give a receipt to his predecessor to that

effect. While the Treasurer's statement is strictly true, it is learned from other sources that a shortage of 88 was found in the new silver vault where \$85, of 88 was found in the new silver vault where \$55,600,000 silver dollars are stored, and a defleit of \$51. In the old silver vault containing \$45,000,000. Both shortages were immediately made good by the persons responsible for the safe keeping of the money. It is believed that this money was lost during the recent flooding of the vault, and that the missing dollars are still in the vault.

IS THE ATHLETIC WAR TO END?

BELIEF THAT THE TWO GREAT RIVAL ORGANI-ZATIONS WILL BURY THE TOMAHAWK

AND JOIN FORCES. The games of the Adelphi Athletic Club, which were to be held at the Manhattan Athletic Club grounds, Eighty-sixth-st, and Eighth-ave., yesterday afternoon, did not take place on account of the heavy rain of the forenoon. The club has been holding games nearly every Saturday this summer, but T. P. Conneff, chairman of the Athletic Committee, yesterday said that if the Amateur Athletic Union and the National Association of Amateur Athletes of America amalgamated, as he thought they would, the club could not hold many more games this season, If the union of the two organizations takes place, the Adelphi Club will have to give up some Sundays to the clubs that are now members of the

A meeting was held by the Manhattan Athletic Club Thursday night to consider the proposed amalgamation of the Amateur Athletic Union and the National Association of Amateur Athletes of America. and a plan was adopted by which it is hoped the desired end will be reached. Walton Storm was appointe to urge the Association to adopt this plan at its meeting next Tue-day night. As Mr. Storm is its meeting next Tue-day night. As Mr. Storm is president of the National Association of Amateur Athletes of America, and represents the club that is the backbone of the organization, it seems likely that the proposition will be adopted. Then a committee will be selected to present the plan to a similar committee which has already been appointed by the Union. It is confidently expected that the amaignmation will then be accomplished without difficulty. That the end of the athletic war is near at hand is believed by nearly all the leading members of the two organizations who have been most bitter in the fight.

COST OF THE CITY'S PUBLIC WORKS.

COMMISSIONER GILROY'S QUARTERLY STATE MENT-HEAVY DRAFTS ON THE WATER

SUPPLY. The report of the Commissioner of Public Works for the quarter ending June 30, 1889, was sent to Mayor Grant yesterday. The expenditures for the quarter amounted to \$1,182,070 \$2, divided as follows: Appropriation account, \$746,360 62; local improvement funds, \$335,164 63; Croton water \$90,659 28; restoring pavements, \$6,276.25; water meters, \$3,610.04. Sixty contracts were entered into at an estimated cost of \$954,110 52, and fifty-nine contracts were completed, which cost \$252,765.51.

The average rainfall in the Croton and Bronx

River watersheds was 11.54. The daily water supply from the Aqueduct and the Bronx River condui-

averaged 112,000,000 gallons.

As to the present state of the water supply the Commissioner says that since September, 1884, when the Bronx River supply was brought into use, the supply which can be received has remained stationary at the maximum capacity of the Croton Aqueduct and the Bronx River system, and must so remain until an additional supply is received through the new Aqueduct, and that in the meantime the demand for water increases with the rapid growth of the city in buildings and population, and the constant ex-tension of the water service into new streets and districts. The increased consumption of water causes corresponding decrease of pressure in the distributing mains, which the department is powerless to remedy antil the new Aqueduct is brought into use. the coming of warm weather the consumption of water has been 155,000,000 gallens in excess of the water has been 135,000,000 gains in supply received in the city, reducing the depth of water in the Central Park reservoirs by sixty-three inches, and causing a corresponding decrease of pressure in the mains.

Additional water mains 23,869 feet in length have been laid, making 642 3-4 miles of water mains now

Nine hundred and forty-one telegraph poles and 425,000,000 feet of electric wires were removed by the Bureau of Incumbrances, as well as 14e dead and dangerous shade trees. The water service yielded a revenue of \$690,250,260 during the quarter, and from miscellaneous permits \$64,144,65 was received.

NEW VARIETYES OF WHEAT.

Washington, July 27.-The Department of Agri-culture has practically concluded its selection of the varieties of winter wheats for general distribution. The list comprises seven varieties, of which three are new; that ke, have generally only a local cultivation, and three have had considerable repute in some States but comparatively none in others, in the latter of which only will they be distributed. The spring wheats will be considered later, as they can be dis tributed in the winter and early spring.

The Department has also ordered from France five varieties of winter wheats, three of which are o Southern origin, and are recommended as rust-proof; the other two are new wheat crosses, made by VII morin, of Paris. The Southern wheats are the Richelle de Naples, a white bald wheat; the Zelande, also a white bald, and the Rieti, a red bearded variety. These wheats are to be distributed in bushel lots to the experiment stations in the Southern States.

The other two are for distribution in bushel lots to the experiment stations of the Middle and Northern One is called the Dattel, a cross of the

States. One is called the Dattel, a cross of the Prince Albert and the winter red-bearied Chiddam, both English wheats, acclimated in France. The other is the Lamed, a cross of the Prince Albert and the Noe, an odessa wheat, with blue stem. A full history and description of the characteristics of each wheat, and, in the cases of crosses, of the wheats crossed, will be sent with each lot, so that the experiment can be intelligently studied. The matter of the selection of these foreign wheats has had careful and thorough consideration by the Department, and the hope is felt that the weak points of most foreign wheats have been avoided, and that one or more standard varieties may be secured, with new qualities, adapted to our climate and soil.

TABRED AND FEATHERED IN NEW YORK STATE. Canandaigua, N. Y., July 27 .- About 5 a. m. ye. terday John Berry, a farmer, age between twenty five and thirty, attacked Mrs. Mariette Lord, age about fifty-nine years, who employed him upon her farm Edward Stapleton, a fellow-employe, heard Mrs. Lord's outeries, and interfered. Mrs. Lord came to Canan daigua yesterday and made complaint against Berry open which a warrant was issued. Deputy Sherif McPhillips started for Gorham to arrest Berry, bu when he arrived there about 1:30 o'clock this morning he found that the enraged neighbors had taken ma ters in their own hands. A number of men last night took Berry to a secluded spot about four miles dis tant, stripped him and dressed him in a liberal coat of tar and feathers. After he escaped from the mobile borrowed a shirt and a pair of trousers at a farmhouse, leturned to the Lord place and secreted himself in a hay-mow, where Deputy sheriff McPhillips found him.

CIVIL SERVICE RULES CHANGED.

Washington, July 27 .- President Harrison has approved changes in the Civil Service regulations applied to the Railway Mail Service, recommended by the Civil Service Conmussioners. These changes permit the appointment without examination of printers employes as such, and of substitutes to take the place of regular appointees when not employed for more than thirty days.

The Civil Service Commission has recommended that the rules governing the appointment of employes in the office of supervising Architect of the Treasury be changed so as to permit of the employment of the best class of talent in that time. The best class of architects will not submit to a competitive examination for appointment.

SALT TUST SHARES NOT ALLOTTED. Subscriptions to the stock of the North American Salt Trust were closed on Thursday. The directors been numerous, the trustees had decided that they were not justified in alloting shares without further negotiations, and that subscriptions would be returned.

1ST MORTGAGE 6 PER CENT. GOLD BONDS (Coupon or Registered) OF THE

LOUISVILLE, ST. LOUIS AND TEXAS RAILWAY CO.,

DUE 1917.
Interest payable in New-York February and August.
CENTRAL TRUST COMPANY OF NEW-YORK,

CENTRAL TRUST COMPANY OF NEW YORK,
TRUSTEE,
The above honds are part of a total authorized issue (at
the rate of \$20,000 per mile on completed road) of \$2,300,000
of which \$630,000 are reserved for extensions and terminals.
The company has for several months successfully operated
142 miles of road between Louisville and Henderson, Ky,
of which it owns 122 miles. The road passes through
rich and populous section of the Ohio Valley, and from its
local trailic and the development of its valuable coal turshess
we feel justified in recommending these bonds to investors. A LIMITED AMOUNT OFFERED FOR SALE.

NATIONAL BANK STOCK FOR SALE.

The subscription book of the National Bank of North Dakota, of Fargo, Dakota, NOW OPEN.
Capital, \$230,000, 2,500 shares of \$100 each. Largest bank in largest city of Dakota. Three directors will be chosen from the largest Eastern stockholders. Legal rate of interest in laketa is 12 per cont, and all the money that can be obtained can be loaned at that rate on first-class commercial and farmers' secured paper.
It is expected to pay 12 per cent (3 per cent quarterly) dividends and pass from 5 to 10 per cent to surplus the first year. It is expected to pay 12 per cent (s per cent quarterly dividends and pass from 5 to 10 per cent to surplus the first year.

A large number of subscriptions have already been received. This stock is now offered at \$102.50 per share, the \$2.50 premium to defray expenses of advertising and placing stock se that the bank can commence business with full \$250.000 cash capital.

The price will be advanced as soon as two-thirds of the stock is subscribed for, so parties desirons of obtaining this stock at BOTTOM PRICE must subscribe at once. The Mortgage Bank and Investment Company, which company is negotiating this stock, has placed stock with nearly 500 Eastern individuals, bankers, banks and corporations, and has never failed to pay all it surced to, and in most every case has it paid more. The section of the West where it is located is rapidly growing and increasing in population, hence a great domand for capital, and it is safe to say that the National Bank of North Dakots will go beyond the expectation of its stockholder; in the way of money-making. There is not a bank in Dakota making less than 12 per cent, while many have made as much as 30 per cent per annum. The matter we would be a surfaced to the president of these beaking and investment of these pays the surface of the matters. Parties desiron times in Dakota for about the banking and investment of the pass stockholders will do matters. Parties desiron times in Dakota for about the vice of the pay and the stockholders residing near you.

TO CAPITALISTS AND OWNERS OF MARRIES.
FOR SALE, AT PUBLIC AUCTION, THURSDAY, Aug.
S. 1889, on the premises, at 12 o'clock, noon,
THE EXTENSIVE MARBLE QUARRIES AT SHEEL.
FIELD, BERKSHIRE COUNTY, MASS.
The property of the Company consists of about 45 acres
of land, in one compact, good-shaped lot, of which about 24 acres comprise the Marble formation rising to a height of 85 feet, sloping on all sides, thus securing perfect drainage, and avoiding the possibility of any trouble by waters.
The Marble lies in strata of varying thickness, so that blocks of unusual length can readily be furnished, and is easily and cheapily quarried.

The Quarries have been opened for a number of years, and the marble extensively used for building purposes. The Court House at Pittafield, Mass., and New York City were built of this marble.

The Quarries are situated near Shoffield, Berkshire Co., Mass., on the Houstonic Railroad, thus reaching tide water at Bridgeport, Conn., and the Boston and Albany road at Pittafield. There are a large number of blocks are properly to be found in this country, while the lands outside the Quarries are stopped for house lots, being in the most picture-sque and lovely part of the Berkshire Hills, within a short distance of Lenox, where lands have quadrupled in value within the past five years.

The entire plant is in first-class order, and will be sold on easy terms of payment, owners rething from business; \$5,000 cash required on day of saie. For further partieur lars, apply to BERKSHIRE MARBLE CO., P. O. Box 2,412, Boston, Mass.
